Did You KNOW?

We're making it easier to do business with Mactac. Here's what we've done so far.

All-In Simplified Pricing

We've simplified our pricing so what you see is what you pay. Our pricing is now all-in, with no surcharges, fuel fees, tariff add-ons, or hidden charges added after the fact. We've eliminated quantity tiers, so the same great price applies to any size order. This means straightforward, easy-to-understand pricing.

Freight Made Simple

Our freight program is clear and transparent, with straightforward pricing and no hidden fees. An order of \$4,000 or more qualifies for free freight, making it easy to plan and maximize value with every purchase.

Did You KNOW?

We're making it easier to do business with Mactac. Here's what we've done so far.

West Coast Distribution Center

To better serve customers in the West, we now operate a distribution center in Ontario, California. This helps improve service levels, shorten transit times, and enhance overall delivery reliability across the region.

Expanded Product Offering

Looking for more options? Mactac offers a wide range of additional sizes, finishes, mix-and-match constructions, and fully custom solutions. If you don't see exactly what you need, your Mactac sales representative can help explore available options or discuss custom capabilities. Minimum order quantities generally range from 5 to 20 rolls, though requirements may vary based on the specific construction.

Updated Packaging

You may notice a change in how your orders arrive. We're transitioning from branded white boxes to plain brown corrugated packaging. This change is cosmetic only – product quality, specifications, and labeling remain the same. The result is a more sustainable solution.

Smaller Sample Hand Sheets

We've updated our sample program to offer smaller hand sheet sizes. This allows us to fulfill samples more efficiently while still providing you with what you need to evaluate visual and physical attributes, so you can move confidently from hand sheets to a production order!

LF5600 Series | 1.5 mil PVC-Free Polyurethane (TPU)

LF5640 is a 1.5 mil highly conformable, PVC-free polyurethane overlaminate with a clear permanent acrylic pressure-sensitive adhesive with a 1.4 mil polyester release liner. It is designed for long-term outdoor, marine, fleet, and vehicle graphics using urethane or cast PVC print media on flat, curved, corrugated, or riveted surfaces. Built-in UV protection helps extend graphic life by resisting color fade from ultraviolet exposure.
